

## Company Introduction letter

We hereby introduce **Rational System Trading LLC** as a company specialized in project supply and procurement management for large engineering, powering and manufacturing industries. The company is based in Dubai, United Arab Emirates and it covers the whole of Middle Eastern market.

The prime objective of the company is to provide service to end users of heavy machinery and electrical equipment by sourcing their needed items from the original equipment manufacturer (O.E.M), hence saving high markups and overhead charges of the O.E.M.

To guarantee the best quality and logistics of supply, our company has established a very high standard quality check system working in conjunction with the vendors in USA and Europe; proven to be a better Q.C.

Our company can also source electrical equipment from an extensive number of high profile manufacturers in the United State, Europe and other part of the world.
